Subject: draft update

Hey Mike,

Per our discussion, here is a draft of what I was planning to send out this Friday to the CFAC distribution list. Let me know your thoughts/edits.

Dear Superfund Stakeholders,

A quick update and farewell: I will be moving on from EPA and will no longer be the community involvement coordinator (CIC) for the Columbia Falls Aluminum Company (CFAC) site. I am transferring to the U.S. Fish and Wildlife Service and today is my last day with EPA. I have enjoyed my time with EPA and will miss working on its mission to protect human health and the environment.

Jennifer Chergo will be the new CIC for the CFAC site. Jennifer comes with years of experience with EPA as a CIC who has worked on multiple sites and projects. She is located in the EPA Region 8 office in Denver. Please feel free to contact Jennifer: Chergo.Jennifer@epa.gov; 303 312-6601.

I want to thank you for your engagement and collaboration with EPA on Superfund issues. Working on the CFAC site and with the community has been a rewarding experience for me. I will miss visiting Columbia Falls and working with Mike Cirian, the EPA Remedial Project Manager for the CFAC site. Mike is dedicated to the investigation and cleanup of the CFAC site and I respect him for his expertise, open and friendly nature, and steadfast commitment to his work.

It has been an honor working with all of you, thank you.

Robert Moler

Community Involvement Coordinator

EPA – Montana
